Aanand Kumar Sah

Empowering data-driven insights as a versatile Data Analyst

Explore My Portfolio **Get in Touch**

My Skills

Data Analysis

Proficient in MS Excel, Python, SQL, and R for data manipulation, analysis, and visualization.

Visualization

Adept at creating compelling and insightful data visualizations using power BI, Tableau, and other tools.

Problem Solving

Strong analytical and critical thinking skills to identify patterns, derive insights, and solve complex problems.

Work Experience

1 **Fresher**

As a recent graduate, I am eager to apply my data analysis skills and contribute to the success of an organization.

2 **Internships**

I have gained valuable experience through various internships, where I honed my data analysis and visualization abilities.

3 **Passion for Data**

My strong interest in data and problem-solving drives me to continuously improve my skills and stay up-to-date with industry trends.

Education

Undergraduate Degree

I have completed my bachelor's degree in a relevant field, which has provided me with a solid foundation in data analysis and problem-solving.

Continuous Learning

I believe in the importance of continuous learning and have pursued various online courses and certifications to enhance my skills.

Hands-on Experience

Throughout my studies, I have actively participated in projects and internships, gaining valuable hands-on experience in the field of data analysis.

Analytical Mindset

My academic background has instilled in me an analytical mindset, which I leverage to tackle complex problems and uncover meaningful insights.

Certifications

INFOSYS

Completed an intensive data analysis program with INFOSYS, where I honed my skills in data manipulation and visualization.

LinkedIn

Earned several LinkedIn certifications in data analysis, business intelligence, and data visualization tools.

Online Courses

Participated in various online courses and workshops to deepen my understanding of data analysis, Python, and SQL.

Portfolio Highlights

▼ Data Analysis Projects

I have worked on a variety of data analysis projects, ranging from financial forecasting to customer segmentation. These projects have allowed me to showcase my skills in data manipulation, statistical analysis, and data visualization.

▼ Visualization Dashboards

I have created interactive and visually appealing data dashboards using tools like Power BI and Tableau. These dashboards help stakeholders make informed decisions by presenting complex data in a clear and concise manner.

▼ Python and SQL Scripts

I have developed Python and SQL scripts to automate data extraction, transformation, and analysis processes. These scripts have helped improve efficiency, reduce manual errors, and provide timely insights.

Testimonials

1 Client Satisfaction

"Aanand's attention to detail and ability to translate complex data into actionable insights has been invaluable to our business. He is a true asset to any data analysis team."
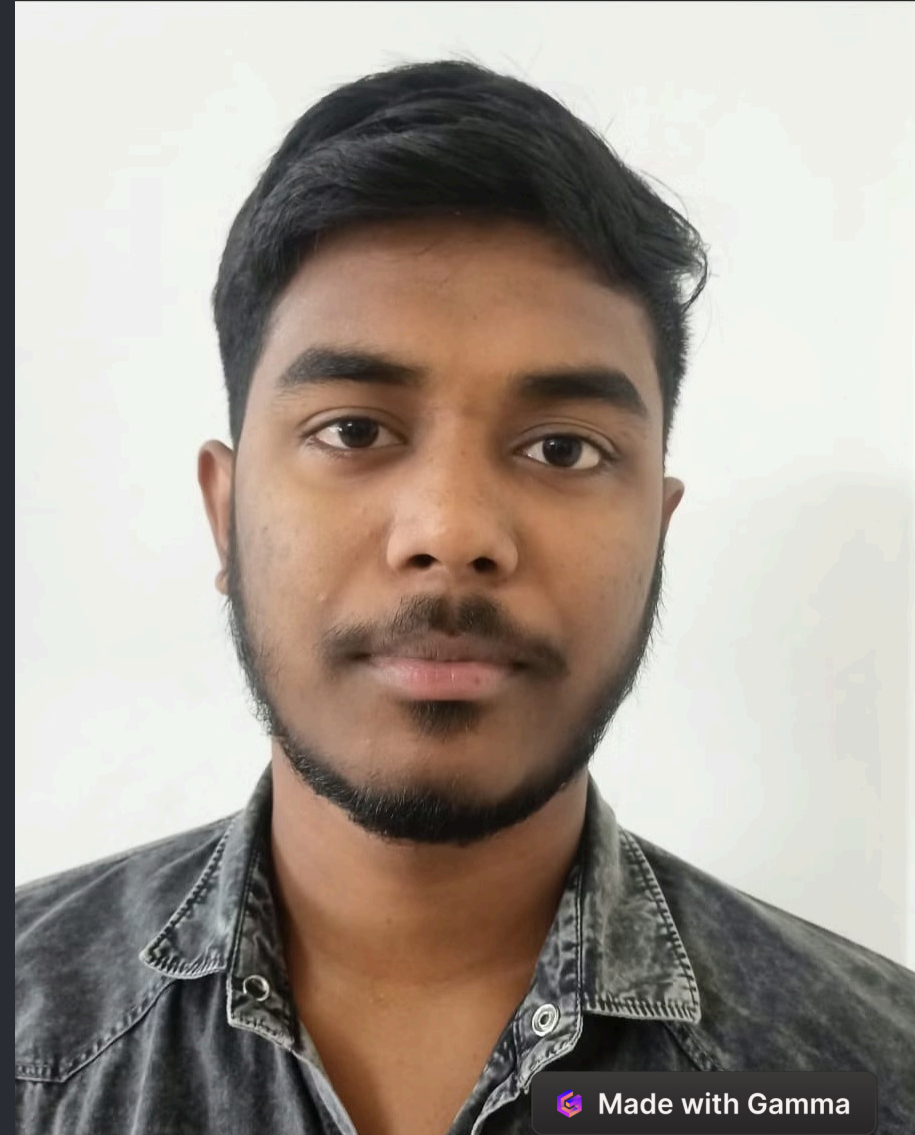

2 Collaborative Approach

"I've had the pleasure of working with Aanand on several projects. His willingness to listen, learn, and contribute to cross-functional teams has made him a joy to collaborate with."

3 Continuous Improvement

"Aanand's passion for data and his drive to continuously improve his skills make him a valuable asset. He is always eager to take on new challenges and find innovative solutions."
